

Do you know...

An educational series for patients and their families

One-handed shoe tying

Tying your shoes with one (1) hand may be hard at first, but using the steps on this handout will help you re-learn this daily task.

1. Hold one shoelace down with your foot, and pull the other lace tight. Make sure the laces cross over when you do this.

2. Make a loop while still holding the lace under the other shoe.

3. Bring the loop behind and under the straight lace.

4. While holding the loop in place between your thumb and index finger, let the straight lace out from under the other shoe.

One-handed shoe tying

5. Use your other fingers to wrap the free lace completely around the loop.

6. Use your thumb to push the middle of the lace through this newly formed loop.

7. Holding one loop in place with your free foot, pull the other loop tight. That's it!

Questions?

To learn more about tying your shoes with one hand, call Rehabilitation Services at 595-3621. If you are inside the hospital, dial 3621. If you are outside the Memphis area, call toll-free 1-866-2ST JUDE (1-866-278-5833), extension 3621.
